

Alpha+ On-Roof PV Mounting System

When fast isn't fast enough and easy is still too hard.

Module mid clamp with Clickstone and integrated bonding

Roof hook with new QuickConnect rail connection

Telescoping end piece

The Alpha+ system is a robust mounting system designed and optimized for exceptionally fast, easy installation of PV modules on pitched roofs. Mounting Systems' new Clickstone technology, extensive component pre-assembly and unique assembly features simplify planning, speed installation and enhance system safety and reliability.

- Easy, precision construction with no custom cutting
- Clickstone technology and extensive pre-assembly speed installation
- A minimum of tools needed on the roof
- Optimized rail design: three rail sizes with symmetrical profiles
- Omega clips for wire management

New, ultra-fast Clickstone technology

1. Click in place
2. Adjust, if necessary
3. Lock into position
